

A modern office interior with a high ceiling featuring exposed ductwork and large black pendant lights. The space is filled with white desks, black chairs, and large windows that provide a view of the city. Potted plants are placed on the desks, and a black bag is on the floor near one of the chairs. The overall atmosphere is professional and contemporary.

BW Consultants
— STRAIGHT TO THE POINT —

WHO WE ARE?

BW Consultants embodies a **young and dynamic consultancy firm** specializing primarily in the **automotive industry**.

Our **strengths** lie both in **large-scale production (OEM)** and in **niches** such as the **sports brands** of vehicle manufacturers, **motorsport** and **special vehicle construction**. Our customers naturally also include the **supplying industries**.

Our team deliberately consists of personalities who have a **long and relevant career in the automotive** environment or the supplying industries. This is where **we differ greatly from traditional consultancies**.

We focus on **practical experience** in order to be able to offer our customers **practical solutions with a high level of acceptance**.

Consulting Focus

OE Manufacturers

**Hypercars
Small Series
Special Vehicles**

**Automotive
Supplier**

Motorsport

OUR CONSULTING SCOPE

As BW Consultants, we focus on the central topic of operations and its key elements
supply chain management and procurement,
corporate quality,
manufacturing and production,
project management,
digitalisation,
the overarching corporate strategy and restructuring.

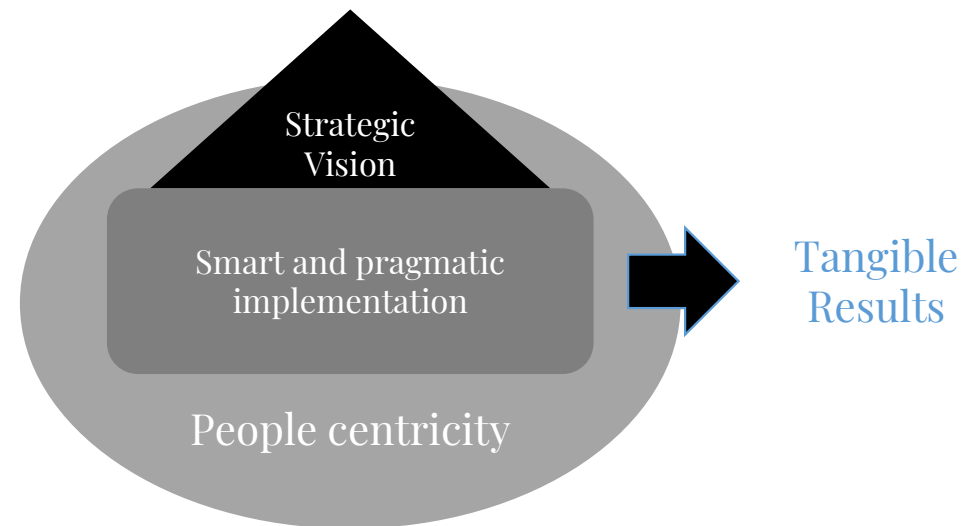

Our Consulting Approach

We see consulting as rooted in strategic thinking and driven by practical, solution-focused actions.

The core of our approach revolves around people, given that our collective success relies on close collaboration with our clients and their teams.

We believe that to reach our common goals, we need to inspire enthusiasm for our ideas and foster a genuine willingness to embrace change.

Solution-orientated – strategic in vision, pragmatic and strong in action!

 - Deriving a strategy for your company
 - Implementation planning and implementation (scheduling, moderation of working groups)
 - Review workshops
- Business model development
- Change management and organizational transformation
- Business transformation

Interim Management

Interim managers can
fill a temporary vacancy,
provide external inputs in phases of change,
contribute professional expertise to the reorganisation of departments,
guide internal replacements to the new challenges.

Our interim managers have years of experience in management positions in their respective areas of specialisation. As a result, they quickly familiarise themselves with their new role and benefit from valuable outside-in input. Uncomplicated contract terms and short availability and termination periods are decisive advantages. Our interims have solid management and project experience in corporate groups, SMEs and start-ups!
